

# SARAH ADEWALE

Software Engineer

## SUMMARY

I'm a creative and detail-oriented Software Engineer with 4 years of experience in product development, website design, user interface & experience design, and digital marketing. I have a proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Remote

October 2021 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

**Venddir (Full Stack Web App)** – Venddir is an online directory for vendors. As with any directory, its core function is listing - alphabetically or thematically with details such as names, addresses, and phone numbers, - all vendors who have opted to showcase their business information on the platform.

**Sociio (Full Stack Web App)** – Sociio is a social media app for posting cool pictures and networking with peers. Users can sign up, login, create social media posts, bookmark posts, chat with other users etc...

**Other Projects:** [YouTube to mp3 converter](#), Carousel de Sanchez with the Rick and Morty API, Kanye Album Picker.

### Fullstack Website Developer & SEO Specialist at ColorMe

January 2019 — 2022

Created full-stack web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on the design, SEO and social media strategy. Some clients included:
