

# SARAH ADEWALE

Software Engineer

## SUMMARY

I'm a creative and detail-oriented Software Engineer with experience in product development, website design, user interface & experience design, and digital marketing. I have a proven track record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Remote

October 2020 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full-stack web applications
- Applied agile methodologies like SCRUM for project management

#### Recent Projects:

**Venddir (Full Stack Web App)** – Venddir is an online directory for vendors. As with any directory, its core function is listing - alphabetically or thematically with details such as names, addresses, and phone numbers, - all vendors who have opted to showcase their business information on the platform.

**Liberterra** – Users search through a list of properties to rent, lease or buy. Accredited agents can create accounts, and add properties to their portfolios.

**Other Projects:** Carrousel de Sanchez with the Rick and Mory API, Kanye Album Picker.

### Fullstack Website Development & SEO at ColorMe

January 2019 — Present

Created full-stack web applications and static websites for different clients across small and medium-sized businesses. Also, consulted on the design, SEO and social media strategy. Some clients included:

[Urbane Store](#)

[Kenenna](#)

[DevPath](#)

[Petran Academy](#)

### Social Media Manager & Front-End Developer at Covenant Christian Centre

January 2018 — January 2020

Created full-stack web applications and static websites for the organisation. Also, I consulted and supervised all social media platform processes including content creation and publication.
